

Alfa-Nibblets

High Quality Alfalfa Based Product In A Small Pellet

-Features-

- ✓ Made from super premium mold free dehydrated alfalfa meal for year round availability and consistent quality.
- ✓ May be fed as you would alfalfa hay. Use along with a quality feed and grass hay or pasture.
- ✓ Can replace alfalfa hay in a horses feeding program. Feed approximately two thirds to one half of the amount of Alfa Nibblets as you would alfalfa hay.
- ✓ May be fed to horses, cattle, sheep, goats, rabbits, poultry and many other animals to provide a consistent clean and uniform source of high quality alfalfa.
- ✓ Simplifies feeding programs in an easy to feed and uniform quality product.
- ✓ Produced with only choice quality dehydrated northern alfalfa that must first pass our strict quality control review before being used.
- ✓ Dehydrated alfalfa is mechanically dried right after cutting to avoid any of the weather exposure that sun cured alfalfa hay is exposed to. This greatly reduces the moisture level and concentrates the dry alfalfa leaf meal.
- ✓ Reliable results can be expected with this consistent quality highly advanced feed.
