

Egg Booster 16 Nibbles and Crumbles

For Those Who Want The Very Best Laying Feed

-Features-

- ✓ Contains natural ingredients including wholesome grains and quality vegetable protein to promote healthy optimum production.
- ✓ Convenient small “nibblet” pellets are designed to minimize wasted feed, or available in crumble granules for birds that prefer the smaller size food particles.
- ✓ Contains 16% natural protein with natural calcium and other minerals that help promote quality eggshell formation.
- ✓ Formulated to maximize high quality egg production with bright yellow yolks.
- ✓ All natural vegetable protein – No animal protein is used which helps ensure high quality farm fresh wholesome eggs.
- ✓ Completely fortified with vitamins and minerals.
- ✓ Added digestive enzymes (yeast culture and probiotics) are used to help keep birds laying more eggs for longer periods of time.
- ✓ Compare the tag label to your present laying feed to see the difference.
- ✓ Consistent quality backed by Bluebonnet’s satisfaction guarantee.
