

Pasture Plus+Hi-Mag Mineral

With  *"Water Shed" Technology*

Premium Magnesium Mineral for Beef Cattle on Lush Green Pasture

-Features-

- ✓ Provides high levels of Magnesium along with Calcium and Phosphorous and vital levels of Trace Minerals and Vitamin A needed for the maximum nutritional response.
- ✓ Feed free choice to cattle grazing on lush green pastures such as wheat, oats, ryegrass or immature native spring pastures.
- ✓  "Water Shed" technology: "Helps Keep Mineral Dry". Protects mineral from weather and helps resist caking, leaching & hardening in the mineral feeder.
- ✓ Contains prebiotics from yeast culture to help animals digest forages more thoroughly and maintain a healthy digestive system.
- ✓ Provides highly absorbable magnesium at the correct level to help avoid grass tetany along with a full compliment of modern supplementation including calcium, phosphorous, salt, zinc, manganese, copper, iodine, selenium and vitamin A.
- ✓ Contains natural flavors & cane molasses to enhance consumption. Cattle need to consume an average of 2 ounces minimum daily to help avoid grass tetany.
- ✓ Use as the only source of salt to help ensure proper consumption. If animals over consume mineral add approximately 10% additional loose salt until animals adjust to the mineral. At that point, you may stop adding the additional salt.
- ✓ For best results, feed continuously in a weather protected mineral feeder or under a loafing shed. Keep fresh product out at all times.
