

Llama / Alpaca Supreme

Premium Balanced Feed with ALFA-FIBER for growth, breeding & maintenance of all Alpaca & Llama.

Premium quality balanced feed that meets all NRC requirements for Alpaca and Llama of all ages. Energy fortified with quality fats rich in Omega 3 and 6 fatty acids. This Bluebonnet "Safe-Carb" formula combines high technology supplements with reduced carbohydrate, sugar and starch levels to produce this superior nutritional product.

-Guaranteed Analysis-

Crude Protein	Min	15.00 %	Manganese	Min	500 ppm
Crude Fat	Min	5.00 %	Iodine	Min	2.1 ppm
Crude Fiber	Min	14.00 %	Vitamin A	Min	57,000 IU/kg
Calcium	Max	2.20 %	Vitamin D	Min	30,000 IU/kg
Calcium	Min	1.70 %	Vitamin E	Min	880 IU/kg
Phosphorus	Min	1.10 %	Ascorbic Acid	Min	100 mg/kg
Magnesium	Min	0.45 %	Vitamin B12	Min	230 mcg/kg
Potassium	Min	1.10 %	Thiamine	Min	150 mg/kg
Copper	Max	28 ppm	Niacin	Min	500 mg/kg
Copper	Min	18 ppm	Choline	Min	650 mg/kg
Selenium	Min	2.2 ppm	Biotin	Min	2.2 mg/kg
Zinc	Min	1,000 ppm	Riboflavin	Min	20 mg/kg
		Saccharomyces Cerevisiae	Min.	800,000,000 Cells/Lb.	
		Lactobacillus Acidophilus	Min.	300,000,000 CFU/Lb.	
		Enterococcus Faecium	Min.	250,000,000 CFU/Lb.	
		Aspergillus Niger	Min.	80,000 CFU/Lb.	
		Bacillus Subtilis	Min.	80,000 CFU/Lb.	
		Amylase	Min.	3 BAU/Lb.	
		Cellulase	Min.	100 CMC Units/Lb.	
		Phytase	Min.	11 SPU/Lb.	
		Protease	Min.	22 HUT/Lb.	

-Ingredients-

Dehydrated Alfalfa Leaf Meal, Rice Bran, Wheat Middlings, Beet Pulp, Dehulled Soybean Meal, Soybean Oil, Flax Seed, Fish Oil, Yeast Culture, Dried Kelp Meal, Diatomaceous Earth, Calcium Carbonate, Monocalcium Phosphate, Salt, Magnesium Amino Acid Chelate, Magnesium Sulfate, Potassium Sulfate, Sodium Bicarbonate, Yucca Schidigera Extract, Dried Enterococcus Faecium Product, Dried Lactobacillus Acidophilus Fermentation Product, Dried Aspergillus Niger Fermentation Extract, Dried Trichoderma Longibrachiatum Fermentation Extract, Dried Bacillus Subtilis Fermentation Extract, Dried Aspergillus Oryzae Fermentation Extract, Lignin Sulfonate, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Selenium Yeast, L-Ascorbyl-2-Polyphosphate (Source of Ascorbic Acid - Vitamin C), Choline Chloride, Thiamine Mononitrate, Riboflavin-5-Phosphate, d-Calcium Pantothenate, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Niacin Supplement, Folic Acid, Biotin, Zinc Amino Acid Chelate, Zinc Sulfate, Manganese Amino Acid Chelate, Manganese Sulfate, Copper Amino Acid Chelate, Cobalt Carbonate, Ethylenediamine Dihydriodide, Artificial and Natural Flavors.

-Features-

- Meets or exceeds NRC requirements for Camelids of all life stages
- "SAFE COPPER FORMULA" guarantees safe yet effective level of copper.
- Contains patented chelated organic trace minerals for maximum absorption.
- Organic selenium with premium Vitamin E included for optimal antioxidant activity.
- Bluebonnet "Safe-Carb" formula contains reduced carbohydrate, sugar and starch levels.
- Kelp seaweed meal is included for increased micronutrient supplementation.
- Contains "Cool Energy" from vegetable & purified fish oils rich in omega 3 & 6 fatty acids.
- "True Name" ingredient list shows the specific ingredient names in this feed.
- Guaranteed levels of probiotics, enzymes and yeast culture assist in safe digestion.
- Fortified with critical levels of trace minerals, and vitamins levels for optimum results.
- Contains rice bran, yucca extract, flax seed, kelp, fish oil, beet pulp, biotin and more.
- Appropriate ingredient tests for aflatoxin and specific mycotoxin levels are done.
- Balanced life cycle nutrients appropriate for each life phase.
- Contains acid buffers to reduce incidence of ulcers or lactic acidosis.

-Daily Feeding Directions-

Feed daily at the following rates with quality hay and/or pasture.

For Adult Maintenance, Breeding and Gestation: Feed from 0.25 to 0.50 lb. per 100 lbs. of body weight.

For Lactation: Feed from 0.60 lb. in early lactation to 0.75 lb. in late lactation per 100 lbs. of body weight.

For Overweight or Older Animals: Feed 0.35 to 0.50 lb. per 100 lbs. of body weight.

Growing Crias From 2 Months To 12 Months Of Age: Feed 0.40 to 0.50 lbs per 50 lbs. of body weight.

IMPORTANT FEEDING INFORMATION

- Increase or decrease daily feed to obtain the desired growth or body condition.
- Feed proper weight divided into two separate feedings daily for best results and safety.
- Offer clean fresh water at all times.
- Do NOT feed additional copper to animals. This will avoid potential copper toxicity.
- Use only fresh feed stored in cool, dry storage away from rodents, insects and moisture.
- Loose salt may be offered free choice.
